

Day – 1 Home work for Lesson-1 and Lesson-2

Complete the given task – Part – 1 : Reading & Practice

1. Read Lesson -1 and Lesson-2 for tomorrow's Quiz.
2. Install Android SDK in your own Machine.
3. Create HelloWorld App.
4. Run HelloWorld App using Android Emulator.

Refer: Lesson-2 lecture PPT to complete part-II and Part-III assignment.

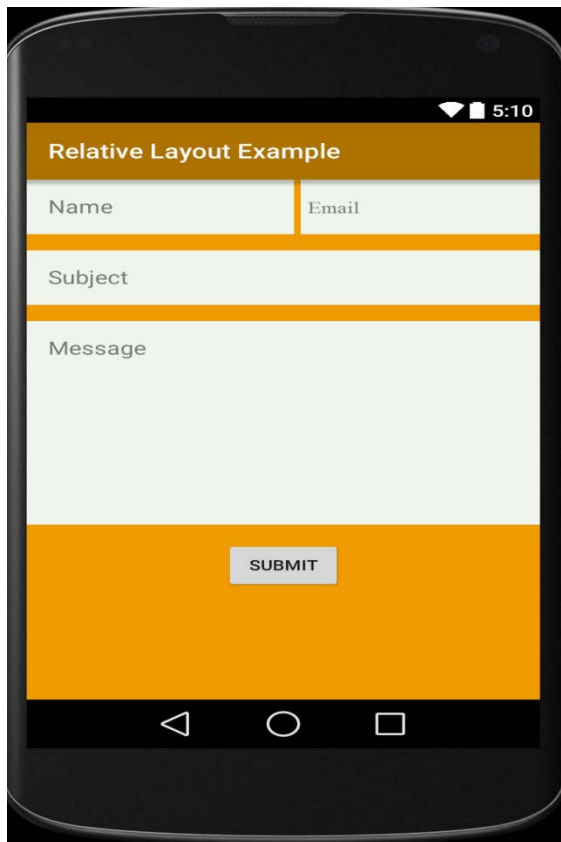

Submit your assignments on GitHub and paste the link on Sakai Assignments.

Part – II

1. Use Relative Layout drag and drop tool to design the given screen using four EditText and one Button control and apply the yellow background color.

To get EditText in Android in xml drag and drop, choose PlainText Component.

To display the text in the control use `android:hint = "Name"`

### Part – III

Design the given screen by using Relative Layout drag and drop with TextView, EditText and Button control. Change the color of TextView as per the screen shot. Apply black background the layout.
